DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-25, drawn to a fiber-reinforced plastic structure.

Group II, claim(s) 26-43, drawn to a method for production of a fiber reinforced plastic structure.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The invention of group I is anticipated or obviated by either EP 0363744 A2, or EP 0234341. The invention of group I recites a fiber-reinforced plastic structure comprising a main body portion having an interior with a cavity wherein the interior width of the cavity is at least 0.5 m and the ratio of the interior maximum width of the cavity to the maximum width of openings lies in the range of 1.1 to 500 or a fiber-reinforced plastic structure comprising a main body portion which has at least one location a portion forming a closed space in the circumferential direction, neither of these technical features are recited in the invention of group II. The invention of group II is anticipated or obviated by either EP 0363744 A2, or EP 0234341. The invention of group II recites a method for production of a fiber reinforced plastic structure including the stages of an inner mold preparation stage, a substrate arrangement stage, a pressure-reduction stage and a synthetic resin impregnation stage, this technical feature is not recited in the group I invention. Because each group recite different technical features and neither group makes a contribution over the prior art, unity of invention is lacking between groups I and II.

3. A telephone call was made to Raj Dave on 3/7/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1772

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
